

## Key Senate Votes From the 117th Congress (2021-2022)

This document presents the positions of Senators in the 117th Congress on important issues. It corrects transcription errors that affected the Key Votes section of Senate profiles in the 2024 edition of *The Almanac of American Politics*. There are 12 Senate votes, selected by the Almanac staff, which are split among economic, foreign policy, and social issues. A member who was absent or declined to vote receives NV for “not voting.” The letter P signifies a vote of “present.” No listings are provided for members who were not in the Senate at the time.
